Notes:				
The Gospel readings are from the plan devised by Esteban Vázquez, based on the kelia reading rule for the monastics of Optina, and utilizing his column III arrangement for the Epistles.				
From 23 to 31 December, the Gospel and Epistle readings follow those of the Church calendar. This is due to the Optina kelia reading plan running a few days shorter than the full year after four full repetitions.				
The Psalms readings are each a single stasis of a kathisma. The cycle repeats six times during the year, with five days left over, so the beginning five staseis are included there.				
OT and Psalms references are according to the LXX numbering.
